

Health and Safety Plan for Short Term Vacation Rental
14901 Caspar Rd., Caspar CA

We provide PPE for our cleaner, who is the only person who occasionally interacts with guests. She wears a mask and gloves any time she enters the rental.

Our guests are required to bring masks and we request they use them any time they are outside in public.

We have shared with our cleaner all pertinent information regarding cleaning techniques and processes as laid out in the Mendocino County document. She is aware that she needs to wear protective gear, and follow all protocols. She does not do any cleaning when guests are present. She is aware that she should not come to work if she is sick, and should self screen using CDC guidelines.

We protect the health of our guests by following all cleaning protocols. Our guests do not come into any public spaces and are not within 6 ft. of others during their stay on our property. They self check in. They do not come into contact with anyone. We have a limit of 3 people in our rental. There is normally at least 6 hours between occupancies, often longer.

There are no crowds gathering on our property.

Payment for stays on our property is made online. All reservations are made online.

COVID19 contact person: Heidi Tarver 510-928-5591

Guests agree to follow our rules, which include social distancing and to wear masks when out in public.

If we should have a guest who contracts COVID, the guests room would be removed from service and quarantined. The room would not be returned to service without enhanced cleaning and disinfecting in accordance with CDC guidelines.
