

Pair Rentals  
Re-opening Plan  
June 24, 2020

This is a single family home that is being rented long term to a worker and his wife in town on essential business until the end of July. The essential business declaration has been verified.

The housekeeper has been briefed on enhanced cleaning procedures including the requirement to wear a mask and gloves when cleaning the house and wiping down all surfaces with a disinfecting cleaner. Special attention is to be given to high touch areas including knobs and handles on doors and fixtures. Housekeeping occurs prior to the arrival of the guests and does not occur during their stay as they have stated they wish to handle their own cleaning.

The spa is locked and closed until it can be drained and refilled.

No one occupies the home for 72 hours prior to the arrival of the guests.

The rental language dictated by the Mendocino County health order effective June 12<sup>th</sup> has been added to the rental agreement.
